## PROFESSIONAL SUMMARY

---

Results-driven Software Engineer with strong analytical and problem-solving skills. Experienced in designing, developing, and maintaining scalable web applications and software solutions. Dedicated to delivering high-quality results within tight deadlines while maintaining clean, efficient, and reliable code. Passionate about continuous learning, innovation, and helping others develop technical and professional skills in software development.

## WORK HISTORY

---

### FrontEnd Developer

07/2026 – 08/2026

*CloudAlpha*

- As a Frontend Developer Intern at CodeAlpha, I focused on creating engaging web interfaces that prioritized user experience. My role involved collaborating on various projects, implementing modern UI designs, and ensuring optimal website performance through effective bug fixing and adherence to best practices in frontend development.

### Wordpress Developer

05/2026 – 09/2026

*Pile & Loop*

Karachi, Pakistan

- Customized WordPress themes and plugins based on business requirements  
Managed and optimized WooCommerce store functionality  
Implemented SEO best practices to improve website performance and search visibility  
Enhanced website design, responsiveness, and user experience  
Troubleshoot and maintained website functionality for smooth performance

### Faculty

08/2023 – 04/2026

*Aptech Computer Education*

Karachi, Pakistan

- Delivered training sessions on software development technologies and programming concepts. Guided students in improving practical and technical skills. Assisted students in understanding real-world software development practices. Supported learners in building strong foundations in programming and web development.
